TOUGH
Justice Butler has a long record of protecting the little guy and holding those who break the law accountable, no matter who they might be – from big business when they commit fraud or negligence, to common criminals, whose appeals he’s voted against 97 percent of the time.

FAIR
With more than three decades of his life dedicated to the law, Justice Butler has the experience, integrity, and fair-minded approach that we need on Wisconsin’s Supreme Court.

IMPARTIAL
His judicial philosophy is simple – uphold the Constitution and hold wrongdoers accountable. That means not substituting his judgment for the Constitution or state statutes, and not forming an opinion about how he’ll rule until he has heard all of the facts.

EXPERIENCED
He’s been a judge for 15 years longer than his opponent has even been an attorney. He’s also a nationally-recognized legal scholar, serving as a faculty member for the prestigious National Judicial College where he teaches judges from across the country and around the world.
