

Be good to yourself over spring break

Make smart choices the night before...
that way you won't have any emergencies
to deal with the morning after!

"Emergency contraception" is a
powerful, high dose of steroids
that tricks your body into
thinking it is pregnant. These steroids can
cause *chemical abortions*
and deadly blood clots.

For more information about safe and healthy choices, contact **Pro-Life Wisconsin**
at (877) 463-7945 or at www.ProLifeWisconsin.org.
